Join us to celebrate twenty years of intensive creative collaboration. We will be presenting a mixture of work that reflects on the progression of our sculptural ideas, as well as some striking new sculpture exhibited for the first time.

Presented as an Open Studio exhibition, this is a chance for you to see how the sculptures are made, the bronze casting stages, and the capacity of our workshop to develop future projects.

Retrospective Exhibition

Please feel welcome to invite friends and colleagues who share your interest in contemporary figurative sculpture.
